TO HELP KEEP YOUR FEET WARM & DRY

#7587

Our basic wick sock. Current color is white with red band at top. Long lasting. Keeps feet warm and dry. 80% hi-bulk acrylic; 10% cotton; 10% stretch nylon. Over-the-calf length.

\$5.75 / pair

#7359

Our best sock. Current color is dark blue with red band at top. 60% polypropylene (tremendous insulating power); 15% worsted wool (unparalleled warmth and durability); 15% stretch nylon; and 10% acrylic. Combines an outer layer that absorbs moisture with an inner layer that repels moisture. Has cushion sole construction.

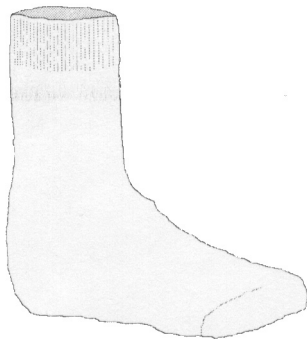

\$6.80 / pair

#2273

Wool sock. Current color is white with red band near top. Very nice! Has high content of wool asked for by many. 50% Hollofil polyester (adds breathable insulation without added weight — Hollofil minimizes loss of body heat); 40% worsted wool; and 10% stretch nylon.

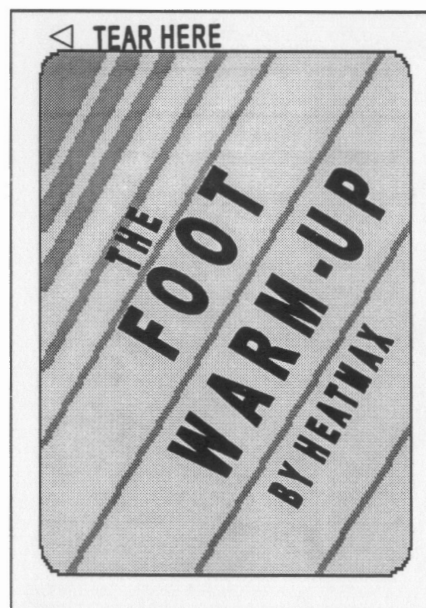

\$6.95 / pair

#4421

Try our white Thermax sock liner for the ultimate in foot warmth and comfort. Very thin. Can be worn inside any of our other socks. 50% Thermax/polyester; and 50% stretch nylon.

DISPOSABLE MINI-HEATERS FOR YOUR FEET

#HEA-HF-1

Still have cold toes? Give these a try!

Provides approximately 100° to 110° for up to 6 hours plus. Remove outside wrapper and shake to mix and activate contents. Allow approximately 15 seconds for maximum warmth. These have small band for attaching to toe surface.
